The Janitor

(Thomas Nelson Inc., July 2007, \$16.99)

is a powerful read that has now sold more than a quarter of a million copies overseas. It hits U.S. bookstores in July.

It's the story of CEO Roger Kimbrough who is in the middle of a personal crisis. He's so consumed by work, so overwhelmed by commitment, that he neglects his wife and barely knows his own kids. His home has become a battlefield. His life is unraveling.

Enter Bob Tidwell, the company's janitor who does a lot more than empty trash containers. Bob has walked in Roger's shoes because once upon a time,

he too was a driver on the fast-track-to-success highway. But he was shown another way - a better way. In this fable, the two men strike up an unlikely friendship and Roger's life and business take a dramatic turn.

This quick read isn't just for the business person. It hits home with anyone who likes a quality story with huge takeaways that inspire, reshape attitudes, and truly provoke thought.

The authors invite you to do what Roger Kimbrough did. Pull up a chair, brew some tea, and prepare to have true wisdom from a lifetime of experiences passed down to you.
